Mission

We are committed to provide Telecom operators with innovative and future-proof Service Orchestration for fast service delivery and full end-to-end management.

Our Company

KULEUVEN DÍSTRINET

- Expertise in management of large-scale distributed systems
- End-to-end service orchestration and automation
- 15+ man years of R&D
- HQ in Leuven, Belgium
- Experienced management team
- Spin-off from University of Leuven,#1 innovative university in Europe (Reuters)
- Major customer references from key European telcos
- ETSI ZSM member
- Award-winning solution (Swisscom, Telia, Proximus)

- Winning market share rapidly through spoton cloud-based services (OTT)
- Innovative in-house global infrastructure built from ground-up (without any legacy)
- Continuous innovation:
 - Changes to production <u>every 11,6 seconds</u> (Amazon, May 2011)
 - <u>+50M deployments</u> annually to dev, test and production hosts (Amazon, November 2014)
 - <u>+100 new products</u> per year (Google)

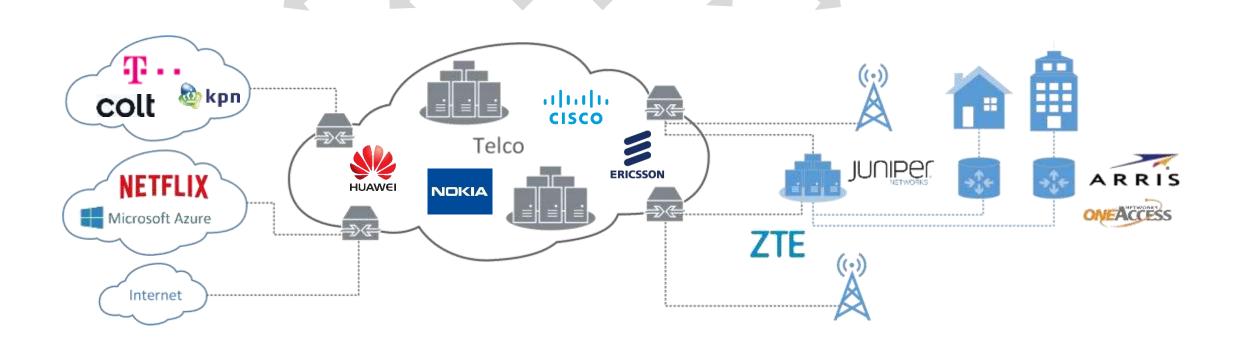

- Top-line revenue under pressure due to OTT players, competing telcos and regulatory changes (no more roaming charges, unbundling)
- Bottom line under pressure due to high operational costs
 - Complex solutions with limited scalability (supporting legacy services)
- Longer innovation cycles
 - 12 to 18 months development cycle
 - 90 days service deployment time

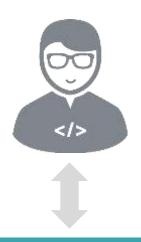

Service Delivery Team Traditional Telco

- Unsatisfiable demand for new services
 - B2C: Virtual CPE
 - B2B: Carrier Ethernet
 - Mobile core services (IMS, EPC, SBC)
